CAMELLIA FLORENCE HOLLIS

Mrs. J. L. Hand of Pelham, Ga., submitted a new seedling to this office for recognition. The seed was gathered in her yard but a record of the parentage was not kept. It was planted nine years ago and the plant has flowered three seasons.

The plant is upright in growth, vigorous, and has bright green leaves which average 3 1-2 inches long by 1 1-2 inches wide.

The plant was in bloom at the time of the January freeze and flowers opened immediately thereafter without signs of cold damage indicating that it is cold resistant. It is a midseason bloomer and opens over a long period.

The flower which was examined was reduced in size by the cold but was still 3 5-8 inches in diameter and 2 1-4 inches in depth. It was a pure china white. In form it was an incomplete double with large center petals. The inner petals were upright in habit like an open pine cone.

The calyx was pubescent and light green with 9 sepals, 3 of which were petaloid.

The outer petals were 8 in number, strap shaped a little over half as wide as they were long. The apices of the petals were rounded and each had a slight notch.

The inner petals were similar in shape to the outer and were 20 in number. They were all about the same length but varied in width. They were erect with fascicles of stamens over and under them.

There were many stamens. They had filaments varying in length from 1 1-2 to 1 1-4 inches long and that were white in color. The anthers were golden yellow.

The variety is to be named Florence Hollis for Mrs. Hand's mother who is 99 years old.

Florence Hollis has been seen by many of the camellia fanciers of the southeast and judged by them to be an outstanding new variety. (Reprint from American Camellia Society News-Letter Volume 3, Number 2, April, 1948.)

CAMELLIA FLORENCE HOLLIS

We are offering again this season plants of this new camellia. American Camellia Society Registration No. 33. You may be sure that our stock is genuine, since we have had exclusive use of the parent plant, with the consent of the owner, Mrs. J. L. Hand, since it first bloomed.

This Camellia was introduced by us in 1951 but due to two unseasonable freezes and other circumstances beyond our control it did not receive the acclaim to which it is entitled.

We now have this beautiful Camellia in blooming size plants and invite you to come to our nursery and see it in bloom. It is our honest opinion that this is one of the best new white camellias on the market.

Plants available this season are in varied sizes, all grafted.

12-18 in.	\$10.00
18-24 in.	12.50
24-36 in	15.00
Specimen	25.00

All Camellias are quoted bailed and burlaped. We do not have any container grown plants for sale.

Hundreds of varieties, thousands of plants to choose from. Come to see them. They are plants of high quality. We believe you will like them.

TRANSPORTATION at Purchaser's risk. Our responsibility ceases upon delivery to forwarding company.

PRICES. This price list cancels previous lists. Prices are f.o.b. our nursery. We cannot ship orders for less than \$10.00. Unless otherwise instructed all orders will be shipped via Railway Express. No orders accepted to be shipped C. O. D.

Due to circumstances beyond our control we cannot guarantee plants to live. We do guarantee them to be true to name as we know them and to be of the quality represented.

We are located two blocks off U.S. 19 on the North side of town. Visitors are always welcome. We want you to enjoy our Camellias as much as we do.

We are at the nursery only on Thursdays except by appointment. Kindly arrange to come to see us then if possible.
